

# COMPUTER DAYS (3,5,8,10)

## 7<sup>th</sup> Grade - Level 1

12 Lessons – 4 Computer Lessons, 8 Classroom Lessons

Mini-Segments for the 4 Computer Lessons total 41

Because it takes so much time to go through every single lesson, I am providing for you the segments that parents feel are very suggestive and out of place for 12 year olds. By logging on you can view the entire segment and review the support material.

### Lesson 3 – SEGMENT 3 –REEL WORLD SERIAL

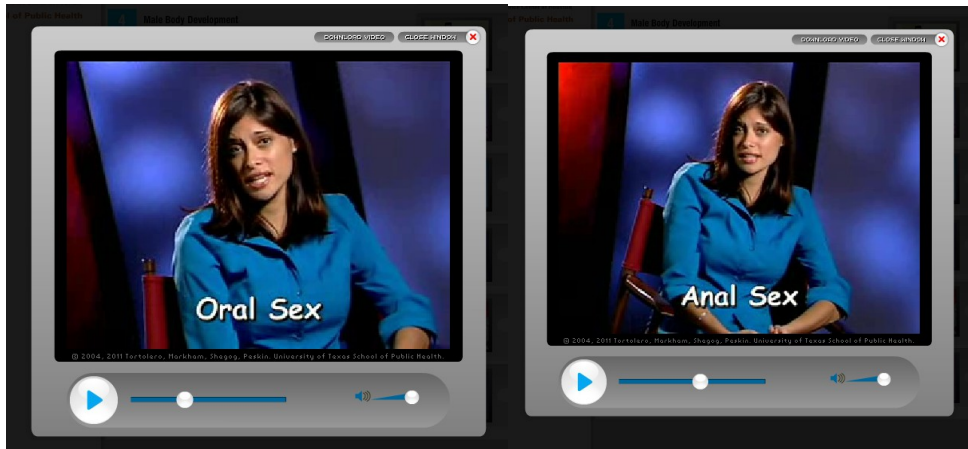

### Lesson 3 – SEGMENT 8 – TAILORED QUIZ 2 MALE

Question reference “ho”, “gay”, “idiot”, drinking, hitting in girlfriend, kissing

References in this segment to “sex hormones”, “sex organs” and “orgasm”

Lesson 10 – SEGMENT 2 – STORY OF LAME BRAIN – (Two characters have SEX right after they meet for the first time)

This would be the two of them in bed after having sex (complete with moaning) and the knives flying out of his penis because he got an STD.

Lesson 10 – SEGMENT 4 and 11– REEL WORLD SERIAL and CONCLUSION

## Lesson 10 – SEGMENT 3 – TEEN TALK

Take away message: Wait till I'm older, Wait till I'm out on my own with a house, wait until I know that person really good and am sure they have no STD

## Lesson 10 – SEGMENT 6 – JAMES AND ALANA

## Lesson 10 – SEGMENT 9 – REDUCING THE RISK

**WITHDRAWAL**

**What it is and how it works**  
This is when a man pulls his penis out of his partner's body before he ejaculates during vaginal sex to try to keep semen and sperm from entering his partner's body.

**Where to get it**  
No additional product is needed.

**How to use it**  
A couple must interrupt vaginal sex to prevent the release of semen in or near the partner's body.

**Failure rates**  
The withdrawal method has a 27% failure rate of reducing the risk of pregnancy with typical use.

**Helps reduce the risk of**  
This method helps reduce the risk of pregnancy a little bit, but it is NOT wise to depend on this method. This method does NOT reduce the risk of HIV or any other STD.

**HOPE**

**What it is and how it works**  
A belief that things will go as you would like them to.

**Where to get it**  
Every person has hopes and dreams for his or her future – beliefs that everything will work out for the best. In this case, the person believes that "it can't happen to me (or my partner)"; "I won't get an STD"; "I won't get HIV"; or "I won't get pregnant (or get my partner pregnant)".

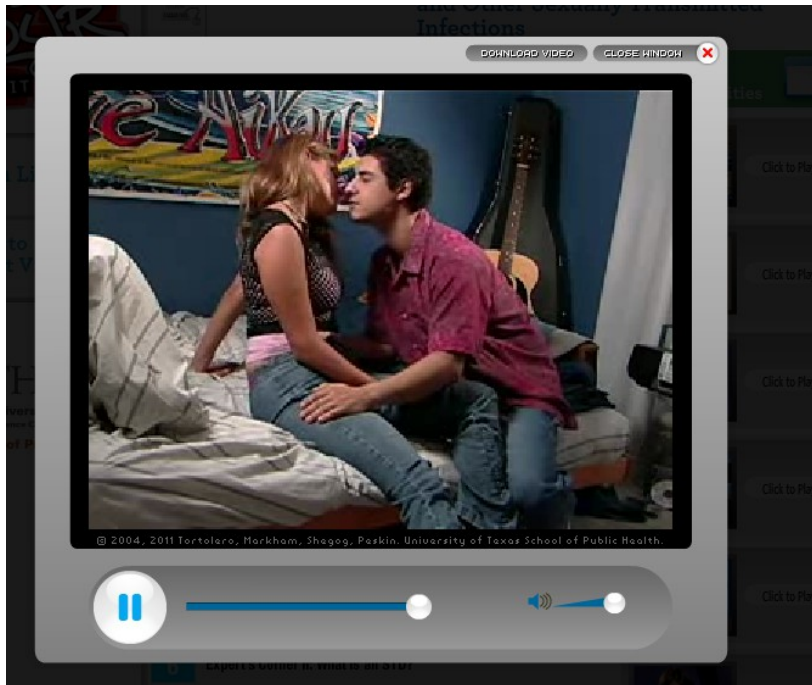

**How to use it**  
By having vaginal, oral or anal sex without any risk reduction method.

**Failure rates**  
Hope has an 85% failure rate.

**Helps reduce the risk of**  
Nothing! Hope does NOT work to reduce the risk of HIV, other STDs, or pregnancy.
