

Also, on www.stopp.org there is a link to another school district in NY welcoming PP to their campus to teach IYG. Further proof that PP is fully trained and involved in presenting this program.

7th Grade Health Class

We're excited this year to welcome Planned Parenthood into Health Class.

Trained educators from Planned Parenthood will be coming into our classroom for a workshop entitled "It's Your Game."

Here's a summary (also sent home in the start of school parent letter):

Health is a 10-week class that will cover topics such as mental health, nutrition, eating disorders, alcohol, tobacco and other drugs and sexuality. This year, we are thrilled to have Planned Parenthood of South Central New York conducting an evidence-based curriculum for seventh graders called It's Your Game....Keep It Real. In January 2011, Planned Parenthood of South Central New York was awarded a Comprehensive Adolescent Pregnancy Prevention (CAPP) grant in an effort to reduce risky behaviors, expand opportunities for adolescents and reduce overall rates of teen pregnancy and sexually transmitted diseases in the Norwich community. It's Your Game....Keep It Real was selected for Norwich City Schools from a list of state approved evidence-based curricula, as required for the CAPP initiative. It's Your Game....Keep It Real is a classroom- and computer-based HIV, STI and pregnancy prevention program for middle school students. It consists of twelve 50-minute lessons in 7th grade and an additional twelve lessons in 8th grade. The program integrates group-based classroom activities (e.g. role plays, group discussion, and small group activities) with personalized journaling and individual tailored activities that are computer-based. The curriculum, which will be facilitated by trained educators from Planned Parenthood, focuses on healthy relationship strategies and risk reduction strategies that have been proven to delay sexual behaviors among adolescents.
